

Virtual Tutoring

Free!

Grades K-12

STAYING CONNECTED TO OUR COMMUNITY

During these uncertain times, although our doors are temporarily closed, **the Youth Center is here to continue to support students through virtual tutoring**—free for any student! We are committed to helping students in any subject: Math, ELA, Science, History, AP classes, etc. During a tutoring session, tutors can work with the student on subject matter, essay revisions, and homework assistance in hopes of strengthening the students' understanding.

Meet Our Tutors

Jake Harte and Maddie Wendling, will work to assist students in grades K-12. Jake is majoring in Mathematics with a concentration in Education at MCLA, and Maddie is majoring in Elementary Education at Endicott College. Kelly McMahon will assist students in grades 9-12. Kelly, a junior at Providence College, is majoring in Health Policy with a minor in Biology.
